## Purpose of the drop in events

Fife Council have carried out a survey of publicly usable greenspace in and around the towns and villages of Fife. This is a chance for members of the public to find out about the survey and make any comments on publicly usable greenspace in their towns or villages.

## Greenspace Strategy process

Fife Council will produce a strategy for the next 5 years. The survey has shown that 40% of residents have below average access to quality greenspace. The strategy will be a plan on how to improve access to quality greenspace.
